DRUGLESS AND NON-SURGICAL TREATING ROOM

THE BAR OF PUBLIC OPINION

CHIROPRACTIC, the greatest health discovery of the Twentieth Century, has been tried at the bar of public opinion and has received a unanimous verdict of approval. Men and women, who at the start were skeptical as to the efficacy of this science, have become staunch believers in it when they have seen what it has done for their sick friends and neighbors. Investigate for yourself this science and find out by personal application.

TREATING A CASE OF NEURITIS

CHIROPRACTIC

THE NEW HEALTH SCIENCE

Will Pressure Upon Nerves at the Spine Cause Disease ?

Alfred Walton, M.D. (Harvard, 1879), says: "The spine has more to do than any other factor with the maintenance of health on the one hand or the establishment of disease on the other."

If you are SICK and have tried everything else and received no benefit, take

CHIROPRACTIC ADJUSTMENTS and GET WELL.

Statistics show that 85% of all chronic cases and 95% of all acute cases yield to Chiropractic. Why not investigate it for yourself?

The success I have had in the past fourteen years is a guarantee of the excellence of the results you will receive in the future.

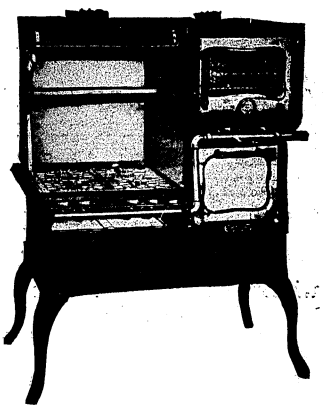
Economy and Cleanliness

ARE TWO MAIN FEATURES OF



McClary's Electric Ranges

THE ROUND CORNERED, SEAMLESS ENAMELLED OVEN insures Cleanliness.

THE PROTECTED ELEMENT on the cooking surface, while maintaining a stronger heat than the open type, affords absolute protection to the wiring from injury caused by moisture or foods boiling over, and presents a smooth, clean surface.

McClary's Gas Ranges

A complete line to suit every need and size of kitchen, both in elevated and low Oven.

A number of styles can be supplied in pure White Enamel Finish.

See these at your dealer's or at our Showrooms.

McClary's SUNSHINE FURNACE

has been **PROVEN** good by owners who have used it. It is easy to handle and saves coal.

Made in both pipe and one-register (pipeless) models.

Various styles are made to suit local conditions.

"McClary's make furnaces for hard or soft coal.

Ask for our illustrated booklet, "The McClary Way of Heating," or call at our Showroom and let us explain why the **SUNSHINE** Furnace, installed by our own experienced workmen in the **McCLARY** way, is the most efficient and healthful heating installation that can be used in any home.

Our Heating Engineer is at your service to give expert advice without obligation or expense to you.

Made and Guaranteed by

Write for this

Free to green keepers and others who desire the latest information on the building of a new Club Green or renovating an old lawn.

We quote Special Prices to Clubs, Institutions, Parks and others who require seed in large quantities.

LAWNS AND GREENS

It is most important that the lawn should be sown with a mixture of grass seeds especially adapted for the purpose required. A mixture suitable for a Park or Golf Course would be quite unfit for a private lawn, Bowling or Putting green. All the finest grasses that are most suitable for the formation of a lawn when grown for seed, produce very much less weight of seed per acre than do the coarser growing varieties, consequently the cheaper the mixture the coarser the turf. We maintain that the finest dwarf growing grasses are the most economical even for large areas, as the turf formed by the dwarf compact habit of the finest grasses requires to be mown only about half as many times as a turf formed of coarser growing varieties.
